the perfect fit from our Ocean Range.**

Amber Breeze 888C02

Highly Durable Water Resistant Floor

Its visual impact is truly stunning and modern, with its extra layer of anti-scratch surface, equipped with acoustic built-in underlay and UV protection layer makes it quietly comfortable under your feet.

Perfect for homes and commercial areas, creating a peaceful environment for your family.

We have enhanced the already impressive Ocean range of hybrid flooring by incorporating a pre-attached acoustic underlay that effectively reduces noise. This makes it an ideal choice for homes with multiple levels, high-traffic rooms, and apartments. Not only does this flooring solution offer exceptional durability but it also provides a quieter and more tranquil environment.

ANTI-SCRATCH LAYER

Super tough scratch-resistant surface making it more durable for everyday living.

WATER-RESISTANT FLOORING

Our 8mm hybrid flooring features a water-resistant interior core, a durable and sturdy structure, and an aesthetically pleasing visual design. If you're looking for a great looking floor with incredible resilience and lifespan, look no further than the Ocean range.

2G CLICK SYSTEM

2G Click System for fast & friendly installation.

PET FRIENDLY

Perfect for pet owners whose pets frequently come back with muddy paws from a morning walk, is not only pet friendly but scratch resistant too. Make claw marks a thing of the past!

CHILD FRIENDLY

Children's activities can often lead to the use of crayons or accidental spillages, which are no longer an issue. These can be wiped clean with ease for a stress-free cleanup.

Perfect for Any Project

NATURAL EMBOSSED TEXTURE

Boasting the beautiful grains and patterns of Australian timber and European Oak, these floorboards also have a textured surface layer, giving the feel and appearance of solid timber.

STABILITY

The SPC (stone plastic composite) core is an innovative flooring technology that provides enhanced stability in environments where temperature changes are frequent and humidity levels vary. This feature makes it a popular choice for all types of living spaces.

MICRO-BEVELLED EDGE

Transform any space into a warm and inviting oasis with our traditional wood plank look.

EASY MAINTENANCE

SPC is designed to be easily cleaned with regular sweeping and mopping! The same cleaning and maintenance are needed as regular vinyl.

PROTECTED FROM THE GROUND UP

Upgrade your flooring to hybrid flooring and enjoy the benefits of a durable, long-lasting floor. With its UV-resistant wear layer, hybrid flooring protects your floor from dents, scratches, and fading due to sunlight exposure. By investing in hybrid flooring, you can enjoy a beautiful, sturdy floor that will stand the test of time, making it a smart choice for your home or workplace.

COMFORT, HEALTHY & QUIET

Discover the ultimate comfort and luxury of our hybrid that feels softer underfoot. Embrace the feeling of walking on clouds with a flooring option that brings both comfort and elegance to your space.

HARDWOOD APPEARANCE

Hybrid flooring is the perfect solution for those who desire to have a stunning and versatile floor that can be installed in any room. With its wide range of colours, textures, and styles, you can create the ambiance you want in any room.

AFFORDABILITY

Upgrade your flooring without breaking the bank! Don't let high prices hold you back from the floors of your dreams - choose our easy and affordable option today!
